Program Goals

1) Recognize those individuals with the potential to become leaders in emergency medicine.

2) Identify an enrollee's financial obligation for their academy experience. Encourage support for participation by working with local FCEP leaders and group sponsors.

3) Provide orientation and receive one-on-one mentorship from active FCEP Board members and leaders. Have opportunities to visit and network with ED medical directors, healthcare administrators, and residency programs around the state.

4) Develop the leadership skills necessary to help actively promote the specialty of Emergency medicine on the local, state, and national level.

5) Upon graduation program participants can successfully matriculate into a leadership position.

Program Objectives

The purpose of the Leadership Academy is to provide the necessary orientation and skill development to future leaders of FCEP and emergency medicine. Upon completion, each Academy participant will have selected their foci of interest and started projects/participation that are aligned with FCEP goals and objectives. The bottom line is future growth and leadership opportunity for all Academy participants.
