Emergency Medicine Learning & Resource Center
Unfamiliar Pediatrics – A Closer Look

**Topic:** Cardiovascular and Respiratory Emergencies

**Date:** March 29, 2017; 9:00am – 12:30pm and 1:00pm – 4:30pm EST

**Location:** EMLRC/FCEP Offices, Orlando, FL

**Duration:** Two, four (4) hour sessions

**Target Audience:** licensed EM professionals in Florida

**Prerequisites:** NONE

**COST:** Free for licensed EM professionals

**Overview and Objectives:**
The second session of FCEP & EMLRC’s *Unfamiliar Pediatrics – A Closer Look* program targets the critical components and skills necessary for successful assessment and management of cardiovascular and respiratory emergencies in the pediatric patient. The program will utilize a combination of didactic lectures and interactive high-fidelity simulation scenarios to introduce participants to the concepts and techniques involved in managing the aforementioned emergencies. Lectures will include a review of pediatric airway management; respiratory distress; and cardiac dysrhythmias involving a pediatric patient. The simulation sessions will focus on management of respiratory distress and cardiac dysrhythmias utilizing several high-fidelity simulators. Finally, a question and answer session at the end of the program will provide participants a forum to interact with leading pediatric emergency medicine specialists, and an opportunity to ask questions related to cardiovascular and respiratory emergencies in the pediatric patient.

- List the indications that signal respiratory failure in the pediatric patient.
- List the indications for respiratory arrest in the pediatric patient.
- Describe characteristics of the pediatric airway that make it unique.
- List the indications for pediatric cardiac dysrhythmias.

**Faculty**

**Todd Wylie, MD**
Assistant Professor
Program Director, Pediatric Emergency Medicine Fellowship
Department of Emergency Medicine
University of Florida College of Medicine – Jacksonville
UF Health - Jacksonville

**John Misdary, MD**
Pediatric Emergency Physician
Department of Emergency Medicine, St. Joseph’s Children’s Hospital

**Tricia Swan, MD, M. Ed., FAAP**
Assistant Professor
Division of Pediatric Emergency Medicine
Department of Emergency Medicine
University of Florida
Gainesville, Florida

**Cristina M. Zeretzke-Bien, MD, FAAP, FAAEM, FACEP**
Clinical Associate Professor, Department of Emergency Medicine
University of Florida, Gainesville
Medical Director, SANE Program
University of Florida, Gainesville
