Street Drugs in the Sunshine State – What you Need to Know

Topic: *Dealing with the Unknown: Risks Associated with Adulterants of Illicit Substances*

Date and Location:

Date: April 11, 2019 at 1:00 pm

Webinar Location: <https://cc.readytalk.com/r/xivefdfifun7&eom>

Post-test and Course Evaluation: <https://www.cvent.com/d/36qx8k/3B>

Method of Participation/How to Claim your CME:

In order to receive continuing education credit, you must:

- 1) Complete the pretest for *Dealing with the unknown: Risks associated with Adulterants of Illicit Substances*
- 2) Watch the **entire** webinar presentation [here](#)
- 3) Complete the *Dealing with the unknown: Risks associated with Adulterants of Illicit Substances* post-test **and** overall course evaluation [here](#). You must earn a minimum of 50% on the post-test in order to receive CE credit.

Once you have attested to the completion of the course and the number of credits you have claimed, you will receive your certificate of completion via email in 2-3 weeks.

Duration: 60 minutes

Target Audience: all licensed EM professionals in Florida and other allied health professionals treating patients requiring emergency care.

Prerequisites: NONE

COST: Free for all licensed EM professionals

Webinar Overview and Objectives:

Drugs of abuse have been shown to occasionally contain substances in addition to that of the primary drug. These adulterants come with their own risks independent of the illicit substance with which they are combined. This program will review potential reasons behind the inclusion of adulterants in illicit substances, as well as how toxicities of selected adulterants may be approached.

- Differentiate among methods by which illicit substances may be altered
- List adulterants identified in illicit substances within recent years
- Discuss possible reasons for inclusion of adulterants
- Develop treatment strategies for management of toxicities associated with selected adulterants

Faculty

Kristen C. Lee, Pharm.D., BCPS
